GUEST SPEAKER

MAYOR TRACY DOBIE

"Are Life's Choices Random?"

I have always known that what I did with my life was up to me. I see life as a succession of 'T' intersections, each one requiring a decision. These decisions have taken me on different life journeys, from the Australian Army to Mayor of the Southern Downs. I always believed these journeys were random and unrelated, but on reflection it seems they were all leading me to this role."
